The intelligence from France continues uneatisfactory. With the enormous armaments engineed and completed with the expendiye ture incurred on the frontier fortresses, and with the intrigues manifested or suspected by een I reason of Prince Napoleon's movements on the an Continent. the situation of affairs appears on to the bair-trigger. The French and German nar i press still indulge in strong national invectives. As for Priissia, she is as stem, unvielding, defensive and dignified as heretofore. Count Bismarch is however, very ill squite prostrate RT. with work. His retirement from public life for cial three months at least, is a cessary, but it is to. pied be hoped his counsels will last that period, at tice The intelligence from Austria, and from Italy ille, top, is very satisfactory, both countries being fer- bent on the maintenance of peace and the ar", the liquidation of their debts.

· From the East, the news is absorbed in the a. startling intelligence of the political assassing. of tion of the Hospodar of Servia. Although the Pol. sanguinary objects of the outrage were fully ards accomplished, the political intention has been uttorly frustrated. The public are fully alive to the necessity of availing them-

selves of the Brindisi route for the transmission of letters, but the Government seem afraid of half- offending the Emperor of the French. The Secretary of State has replied to the e in Hong Kong deputation in a manner which we and can bardly call satisfactory. Hongkong, Monday Evening, This being the last and settling day of time by bargain operations of the 6th sales Bangal t of Draz, there has been some little activity in the market without, however, resulting in any in-

provement in prices. If anything, it has been on the wrong side for those who were speculating for a rise. At the opening of the market Patna was taken up by the natives at \$605 a chest on a few days' credit terms; some arrangements have also been come to among the operators at They 3630, and exchanges have also been made for the 7th sales Drug on three-weeks time to. oney arrive, at a difference of \$71 to \$8 a chest. against \$630 to \$6325 cash. \$6374 to \$640 time but transactions of this nature have been to bis French Mail steamer Imperatrice brings teledone graphic advices from Galcutta, vii Galle, up le by to the 12th instant, giving the result of the pur- 7th Government Opinm anotion. These prices show a decline of about Re. 40 a chest upon the rates roling for the former on the let instant, and about Rs. 55 a chest on the latter. It had been reported 2011 by the gamblers in Calcutta that the total quantity to be brought forward in 1869 would not exceed 44,000 chests of Patna and Benarca. hub there has been no such declaration made on the part of Government. There appears however to be little doubt, that the quantity will be somewhat limited, but to what extent, tting nothing positive had transpired. The steamer unx, T. A. Gibb had been taken up to load a cargo of cotton for China, at Rs. II a bale. The following may be taken as the closing rates: Pafan \$630 to \$6321 cash, and \$6381 to \$640 on time 7th sales to arrive. Malwa continues in fair native demand at \$6571 to

There has not been much doing in the other branches of tende. There have been some sales of Piece Goods and Yarn, but they can hardly be taken as an index to the present level of values. In fact, the market for Manufactured Imports cannot but be considered more or less nominal, so long as it continues in its present depressed and unartisfactory condition. These sales, some of which were made on Saturday. include 150 bales No. 16/24 Yarn at \$130, 6,500 pieces 8/4 Grey shirtings at \$2.85 to \$2.90. 1,500 pieces 8ths. \$17.25 to \$18.50. There is nothing to report in very extensive repairs at Whampon, pre-vious to her departure for Japan, but these are now completed, and we understand sho will come down the latter part of the week, and probably he off for the north a few days after. Her repairs are said to have cost nden 315,000, rather a large amount for a boat that was supposed to be in No. 1 ranning order.
